

LETTER OF APPRECIATION TO SEED FOR LIFE FOR
THEIR ASSISTANCE

I would like to extend my appreciation to Seed
for Life ^{FOR} their assistance they are giving me.

My name is Happy Maganga. I am a boy 15 years old
I am learning at Madzanje D.S.S I am in form one

The Subjects that I am studying these include English
which I scored 90%, Chichewa 90%, Computer Studies
80%, Biology 80%, Agriculture 82%, Social Studies 70%,
Life Skill 80%, History 70%, Geography 80%, Mathematics 90%,
Physics 70% and Chemistry 80%

I would like to say thank so much to Seed for life
for supporting me with the the following items School
fees, School uniform that is to say two pairs of
trousers, two shirts two pairs of shoes, ten exercise
books 12 pens etc. These materials are very much
beneficial in my studies. For example the uniform
helps me not to miss classes since no student
is allowed to enter class without uniform. The

The exercise books and pens help to in such a way that notes given by the teachers are kept safe

The relationship between us and the school management and teachers is very good. Whenever we have a problem concerning a different subject they help us well. This atmosphere of relationship I feel will help us to achieve better grades in our subject.

Seed for life Scholarship is much more better than other Scholarship because other Scholarship only provide school fees and not school uniform and exercise books. However Seed for life would do better than these if they provide examination fees for the students. Currently the organisation that is paying for examination fees is the Twelve nine ministries which is located in Madzanje area near Madzanje Day Secondary School.

LETTER OF APPRECIATION

My name is Regina Kandota. I am 13 years old. I am a female. I am learning at Madzange Secondary School. I am in form one.

The subject that I am studying are English, Chichewa, Mathematics, Chemistry, History, Geography, Physics, Social/ Life and Biology. In last past school session I scored the following English 85%, Chichewa 72%, Mathematics 62%, Chemistry 60%, History 73%, Geography 60%, Physics 75%, Social/ Life 75% and Biology 67%.

Thank you for supporting me by giving the following items, school uniform, exercise books, pens, school fees, shoes etc. I had no uniform but now I am able to wearing school uniform, ^{I had no} exercise books and pens but now I am able to write some notes and exercise that given by teacher. This is because once I am using these items I am confidence with encourage me to work extra hard to fulfill my goal.

The relationship with school management and teacher is

Good. According to the good relationship, when I am not understand that teacher said when teaching I am always be able to ask teacher where I am not understanding. That is why I am achieve better grades.

Seed for life is better than other scholarship because Seed for life give support including exercise books, pens, school uniform, shoes etc. However other scholarship pay national examinations. We could be glad with seed for life do the same.

LETTER OF APPRECIATION

I would like to appreciate for the support given to me since I started my secondary education at Madzange C.D.S. I am a female aged 16.

The subjects which I am studying at Engh Madzange CDS are as follows: English, Mathematics, Biology, Chemistry, and Bible Knowledge. Last School session I managed to score the following grades, English 70%, Mathematics 86%, Biology 60%, Chemistry 80%, History 75% and Bible knowledge 75%.

Your support is important because I am able to perform better due to your support. Therefore I appreciate your support given to me as I need all the time.

The relationship with the school management is good and super because I encourage you to continue supporting us to achieve our goal and to have good grades at the end.

seed for life scores marks with other organisation
because it assist us with School fees, materials
like shoes, uniform, exercise book, pens etc. Therefore
seed for life is really good than other organisation.
So I appreciate once again, thank you.

1-2

LETTER OF APPRECIATION TO SEED FOR LIFE

I would like to appreciate for the support given to me since I started my Secondary education. My name is Naomi Kalakamake. I am a female aged 15 years old.

Your support is beneficial because they help my studies for example exercise books and pens they used to write notes given by the teachers, School uniform help me to learn without chasing because they ^{school} ~~help me~~ rules allow everyone to wear School uniform and school fees they help us to learn because no school fees no school, therefore I appreciate your support given to me I need all the time.

The subjects which I am studying are as follows: English, mathematics, Biology, chemistry, physics, Agriculture, social, Life, History and Geography. Last school session I managed

to score the following grades; English 80%;
Mathematics 86%; Biology 70%; chemistry 89%;
History 78%; and Geography 90%.

The relationship between me and the school
management is good because I have never
been called for indiscipline and the teachers
is also good and super. When ever we have
problems concerning difference subjects. Therefore
I encourage you to continue supporting us to
achieve our goal and to have good grades
at the end.

Seed for life scores marks with other
scholarship because it assist us with school
fees and material items. Therefore Seed for
Life is really good than other scholarship
for example other scholarship pay only
school fees. However seed for life needs
to consider paying for national examination
fees and sponsor educational trips like
twelve nine ministry scholarship is doing.

1-2

LETTER OF APPRECIATION TO SEED FOR LIFE FOR YOUR ASSISTANCE

My name is Talandira McDonald and I am
a girl aged 15 years old.

Subjects I study at Madzanga are English
which last time I scored 65%, Geography 54%,
Chichewa 72%, Mathematics 46%, Biology 55%,
Chemistry 43%, Social and life 60%, Physics
59%, Agriculture 62% and history 45%.

The benefits of this items like School fees
it helps me to proceed my education and
School uniform helps me to look like others.
Other items like Scientific it helps in Maths
calculations. School bags helps to carry other
items like pen and exercise books.

There is good relationship with School
management and teachers because I have never
called for indiscipline and there is no

disagreement among me and teachers and they assist me other Subjects that I do not understand. This help me to pass well.

Seed for life Scholarship is good because it assist students with School fees and School item like school uniform, Shoes and etc while other Scholarship^{12/9} ministry pay School fees and National examination fees but you do not pay. However seed for life needs to pay consider paying for National examination fees.

Your Support makes me to proceed my education. I say thanks and continue giving support to us. God Bless you all the times.

MY APPLICATION FOR SCHOOL FEES AND ALL ITEMS YOU PROVIDE

My name is Vincent Kavala. I am in form three at Madzanje Secondary school. I am 18 years old. I am a male student.

The subjects I took and how I perform in these subjects in the last school session including Geography grade A, Physics grade B, History grade B, Agriculture grade B, Chemistry grade B, Chichewa grade B, English grade B, Mathematics grade B, Social Affairs grade C and Computer studies grade C.

Now, I am in form three and I am studying the following subjects; Geography, Physics, Agriculture, Biology, Chemistry, English, Chichewa, Mathematics and Computer studies and I chose these subjects because I want to be a doctor after finishing my academic journey.

The things you provides assist me in different ways and the items like uniform and school fees including shoes allow me to be in class always and study all the subjects since the teacher would not chasing me away out of school campus, on the other hand the items also assist my parents to reach what is needed at school. The items like exercise books and

pens are also help me to propel well in my academic journey.

Teachers provide me with extra questions to study and they also allow me to ask them where I do not understand. School Management arrange trips for us as students to visit different important places for education purposes, provides us with extra classes such as morning classes and evening classes and they also provides us with different materials for cleaning our school premises and other places so that we live healthy. In addition to this, they also provides us with sporting activities to maintain our body.

Comparing seed for life scholarship with others, seed for life is better than other scholarships in different ways such as paying school fees in full amount and also in time unlike Future For All scholarship so this makes all the students belong to seed for life be in class always and seed for life also provides us with other items like exercise books and pens to use at school in time. Although seed for life provides us with these items there are some weaknesses like Twelve Nine Ministries provides examination fee for form two and four students after they observe that their parents

are failing to pay unlike seed for life and Future For All
arrange trips for their beneficiaries to various places for
education purposes such as colleges and universities for
encouragement.

Thank you for all the support you provide and continue
doing the same to other students. God may bless you.

MY APPRECIATION FOR SCHOOL FEES AND MATERIALS

I am a young boy named Matthews Makina, I was born on 14th November, 2006 (18 years). Currently, I am a form three student at Madzanje Day Secondary School.

During my Junior Certificate of Education i got the following results; Chemistry A, Physics A, Mathematics A, Agriculture A, Biology B, English B, Computer studies B, Chichewa B, History C and Social Affairs C. By now i have Chosen a number of subjects to study depending on my goal of becoming a Surgeon. These subjects include; Biology, Chemistry, Physics, Mathematics, Geography, Agriculture, English, Chichewa and Computer studies.

The items you provide assist me in the following ways; The fees you provide has enabled me to always attend all subjects, while other items such as uniform, pens, exercise books, Scientific calculator among others have resulted in smooth running of everyday school activities. Since all materials are available i encouraged to work very hard in order to

improve my performance hence leading to achievement of goal.

I have good relationship with all teachers and the school management in the following ways; I ask the teachers on areas where i failed to understand in order to gain more information on a particular subject. I have never been called for any misconduct because i follow all school ruler and regulations as well as all programs such as study circles, evening studies, morning classes, normal classes among others.

Seed for life is good compared to other scholarships in the following ways; Provision of basic items such as school shoes, uniform, bags, exercise books, scientific calculator among others which is not done by other scholarships, payment of full school fees unlike future for all scholarship which pays only half. Although seed for life is better than others, it has certain notable weaknesses, these include; Twelve nine ministry scholarship provide examination fees, Future for all provide trips for their students in order to see interesting educational areas such as Malawi Univerities unlike Seed for life, PASE scholarship make meetings with their students for advise and encouragement by bring students

from different universities.

I thank you so much for your assistance and I ask you to proceed support me up to university and other students who came from poor families as well as square all weaknesses if necessary.

My APPRECIATION

My name is Joseph Katchire, I am 16 years old and I am in Form three at Matzanje Day Secondary School. The subject which I take and my last term grades results are the following: English scored D, Socia Affairs scored D, History scored C, Biology scored C, ~~History~~ scored Chemistry scored C, Physics scored B Agriculture scored B, Geography scored B Mathematics scored B and Chichew scored B

The items which you always give me are very beneficial in the following ways: Exercise book and Pens assist me to write, notes and exercise that makes me to have more information thereby improving my vocabulary and performance. School uniform and shoes also play an important role of making me to look smart as a student such that I have never been chased away

From school because of not wearing wrong uniform ever without shoes.

My relationships with school management and teacher in terms of my studies is very well since teachers provide me with extra books and frequent assessment in order to improve my performance, in addition to that they also provide me with various school programs like morning classes, study circle as well as extra time to teach me again whenever I have not understood a certain topic or unit.

Comparing seed for life scholarship with other scholarships. Seed for life is more good because it provides students with school materials soon after opening the school unlike other scholarships. Another difference is that seed for life also provides learners with both fees and school materials whereas other scholarships provide learners

with only school fees.

I thank you so much for your assistance
and I ask you to proceed support me
up to university and other students who
came from poor families.

ESSAY OF APPRECIATION

Firstly, my name is Yankho Manjaira. I am a form three student at Madzanzje Day Secondary School. Am a male aged 16.

During the junior Certificate of Education, I got the following grades: A in Agriculture, B in Chichewa, Biology, Mathematics, Chemistry, Physics and Geography, grade C in English and Social affairs and grade D in history. In this senior section I have chosen to drop Social affairs and history because of my ambition of becoming a Doctor and also I have scored unwell in these two subjects.

Thirdly, the items you provide for me helps in different ways. For example school fees helps me to attend all my respective subjects because without fees I may be chased away from school. As I am chased away this may cause me to miss some classes. Another way is that the exercise books and pens you provide for me is enough to use the whole term. This obscures me

from being absent searching for exercise books and pens. In addition to this, all items you provide for me including School uniform, bags and shoes assist me in great way that my parents would not managed to do so. This makes me to be always in class.

In addition, I have a good relationship with teachers in the way that they help me in the areas I have problems by providing more information about that area. The same relationship is with school management because I have never called for any misconduct. This makes me to be free from asking teachers in areas where I fail to gain more information hence helps to achieve better grades.

Comparing seed for life with other Scholarship, Seed for life is good in different ways such as; Paying school fees in time, this helps us from being chased away, Provide with basic items such as pens,

exercise books, uniform and shoes among others. Other scholarship provide only fees to their students.

Although seed for life provide with all these items, Other scholarship like twelve 9 ministries provide with examination fees for form two and four candidates. They do this after observing that some parents failed to pay examination fees for their children in time. Future for all scholarship have education visit trips with their students to collages and universities for encouragement and also to allow them to see the life change after Secondary School.

We thank to seed for life because our parents could not managed to provide all the basic items seed for life provide for us. This makes all the students who belong to seed for life be proud of it. May God bless you...

APPLICATION FOR SCHOOL FEES AND MATERIAL GIVEN

I am Malawian boy named Miracle Benard, I am a student at Madzanga Secondary school. Am 17 years old and my sex is male.

At the school I take all ten subjects these are include: Mathematic, History, Biology, social studies, Life skills, chemistry, English, Geography, Physics and chichewa. All the the subject I scored well for example English 69%, History 70%, chemistry 60%, Geography 56%, Life skills 66%, physics 62%, Mathematic 50%, chichewa 80%, Biology 70% and social studies 67%

The beneficial helps me to delay time to be home because chased away from school e.g school fees but your beneficial help me to engage in school, because you provide us school fees, exercise book, school shoes, bags, instruments and many more.

They are good relation with teachers at my school for example: Mr viyano help us how to write understable essay and other work given this what make my performance gone up to have better good grades. There

are different between seed for life and other scholars because other scholarship e.g twelve nine ministry pay the Malawi examination board (MANEB). However you are the best one than other scholarship bursary because you provide us many items.

APPRECIATION FOR FINANCIAL AND MATERIAL ASSISTANCE

Education is often regarded as the Cornerstone of personal and Societal development. At Madzanje Day Secondary School, this belief is not just an abstract idea but rather a reality for students like me.

I am Justin Samuel, a boy of Seventeen years of age and in form three at Madzanje Day Secondary School. In this academic year I am studying Agriculture, Biology, Chemistry, Chichewa, Computer studies, English, Geography, Mathematics and Physics. In the last school session I sat for Junior Certificate Examination and got the following grades: Agriculture A, Mathematics B, Chemistry B, Geography B, Physics C, Social life C, Computer studies C, Chichewa C, Biology C, English D and History D.

I am very grateful to Seed for life for providing me with a school fees and other materials which will go a long way in helping me to realise my dreams. For instance, exercise books and pens which I am with provided with help me to take part in classroom activities such as writing exercises. In addition to school fees, provision of school uniform maintains my identity as a student of Madzanje Day Secondary School. School shoes allow me to walk long distance to and from school.

without any disturbance. All these have significantly contributed to my academic performance.

Another factor that has contributed to my academic success is the cordial relationship that exists between the school management and the students, including myself. I am always free to ask for clarification from teachers whenever I misunderstand a concept and this is so because of this good relationship.

Scholarship being offered by Seed for life is far much better than scholarships being offered by other organisation. The provision of school uniform, pair of ~~school~~ shoes, mathematical instrument, Scientific Calculator, pens, exercise books and school bag make Seed for life a better type of scholarship. Despite the positives highlighted above, there are some few weaknesses. For example, Seed for life does not organise ~~not~~ education trips for students to visit educational places such as colleges which in turn instills hardworking spirit among students. In addition, other scholarship like PACE academy provide examination fees to students under its program which is not the case with Seed for life.

In conclusion, this write up intends to express my heart felt

appreciation to seed for life for the assistance it renders to me and other students. It is obvious that without their assistance, many students would have dropped out of school. I therefore to work to very hard so that I pass with good grades.

APPRECIATION FOR SCHOOL FEES AND MATERIALS GIVEN

SEED FOR LIFE is organisation that help to support all school needs for learning. The organisation help with school fees, school uniform, bags, shoes, pens, mathematical instruments, exercise books and calculators. This organisation help to boost education. This essay explains the studies and appreciation of school fees and materials given.

I am a Malawi girl named Jennipher Phiri, aged 19 years old a student at madranje Day Secondary School now am in form four.

The following subjects is studies last past school session are Agriculture scored 67%, Biology 76%, mathematics 56%, English 64%, Chichewa 80%, History 88%, Geography 66%, Social Studies and Life Skills 74%. All this just done by SEED FOR LIFE SCHOLARSHIP which had help me to attend all school learning programme and also school fees payed in timely.

All this scores in the subjects have been a success because of your school fees and education materials

Such as exercise books, pens, mathematics instruments, school uniform and other things. For instance school uniform help me because i never been sending home because of lack of school uniform

I am in a good relationship with school management is very much good because our teachers encourage to reading notes that write in class that help to remember learning during examination time, doing studies circles with friends. Some days write assessment, write exercise to boost education to encourage to get good points for end of school year. As school there are some activities that help to easy understand to get good grades. One example is by compulsory studies and morning classes to reduce lateness to encourage education to get thing that wants to fulfill in future after all school programme.

Yes your support with school fees and education materials such as pens, ~~exercise~~ exercise books, uniform, shoes and other things that needed for school learning but do not like other scholarship like Twelve 9 ministries because the offering money of

Examination for beneficiaries and education tries that going to different places for learning. You promise us to give bicycles for help us easy transportation because our homeland is far from school but did not fulfill promise.

To sum up are good people for this all things that support of school programmes. Thank you for school fees and materials given and God bless you so much. For all things I encourage work extremely hard to boost my education.

APPLICATION FOR SCHOOL FEES AND MATERIALS GIVEN

I am a Malawian girl named Honestor Mailosi aged 19 years old, a student at Madzangwe Day Secondary School now am in form four.

The following are the subjects am studying and the score I obtain last past school session Agriculture 65%, Biology 50%, Chichewa 70%, English 68%, Geography 50%, Mathematics 59% and social and developmental studies 50%. All this have done just because of the SEED FOR LIFE scholarship which had helped me to attend classes all the time because school fees is payed in time.

All the above scores in all the subjects have been a success story because of educational materials such as exercise books, pens, uniform and school shoes which SEED FOR LIFE provide us. The materials helped my studies more especially school uniform because I have never been send home because of lack of school uniform unlike other students.

My relationship with the school management has been positive and encouraging they consistently guid and support

me, helping me to understand difficult concepts and motivating me to significantly contributed to my improved performance by doing study circles.

For you supported with school fees and education materials such as uniform, exercise books, bags, school shoes and others but do not offer scholarship like twelve 9 ministries because the offering money for beneficiaries for examination and education trips but also you promise about the bicycle to give us but did not fulfill your promise.

To conclude thanks for school fees and material given. For all things I work hard to boost my education.

APPRECIATION OF EDUCATION MATERIALS GIVEN

I am a 17-year-old male student at Madranje Secondary School. I am currently in form 4, where I am studying a variety of subjects including English, Mathematics, Chichewa, Agriculture, Biology, Chemistry, Physics and Geography. During the last school session, I worked hard and achieved satisfactory grades, where I scored 4 in English, Chichewa and Geography, 3 in Chemistry, Physics and Agriculture, 2 in Mathematics and Biology. However, I believed I still have room for improvement and aim to do better in the upcoming exams.

Being in a bursary for SEED 4 LIFE has been an incredible support to my education. The items provided such as exercise books, pens, uniform and shoes have been very helpful in ensuring that I have everything I need to succeed. Before receiving the

barriers, I struggled with accessing some of these essential materials. Now I am able to focus fully on my studies without the constant worry of lacking the basic tools needed for learning. The exercise books and pens, for example, have allowed me to keep my notes organised, which is critical for revising and preparing for exams. The uniform and shoes have also ensured that I am always presentable and comfortable, which boosts my confidence and focus during lessons.

The relationship I share with the school management and my teachers has been very positive and encouraging. They are always available to offer support when I face difficulties in my studies and their guidance has played a significant role in helping me achieve my current academic standing. I have frequent discussions with my teachers about my progress and they provide valuable feedback to help me improve further. The school management also ensures that we have the

right environments for learning, with clean facilities and necessary resources. This positive relationship has greatly contributed to my ability to maintain focus and work hard to improve my grades.

In conclusion, comparison to other scholarships, I would rate SEED & LIFE scholarship very highly. The support I have received has been both practical and motivational. While other scholarships may only provide financial assistance, SEED & LIFE has gone above and beyond by providing the materials I need to study effectively and consistently. I am grateful for the opportunities they have given me, and I believe that this support will continue to help me achieve my academic goals.

In conclusion, I am extremely thankful to SEED & LIFE for their generous support. The materials they have provided, combined with the strong relationship I have with my teachers and school,

management, have played an essential role in helping me succeed academically. I will continue to work hard to achieve the best grades possible and ensure that this support leads to a bright future for me.

x

1

APPLICATION OF EDUCATION MATERIALS GIVEN AND School FEES

I am a member of Seed for life Scholarship at Madzanga Secondary School. I am a male aged 17.

The subject I obtaining and how I scored last session of school are as follows
English 35%, Biology 40% Agriculture 73%,
Chemistry 60%, Social and life skills 55%,
History 50% mathematics 30%. That is how I had done in last session

The materials that you give it is good because it help me easy understand concept when learning and studying. And make me undifferent with other student according to the materials they used in school and make me look smartly due to nice uniform you give us.

It is a good relation with our school

management because I was not suspended and suspect any case at school. According to the teachers help me to solve problem which are tough for me. They also help me to practice good behaviours by giving guidance and counselling. All of these they done because teachers they wishing a bright future and every one to achieve his / her goals.

Seed for life it is reliable scholarship because they give me all school materials and important thing which is school fees and guidance and counselling except examination fee for national while other scholarship like 12th 9 ministry are doing all these categories.

ix

APPRECIATION OF EDUCATION MATERIALS AND SCHOOL FEES

I am a member of Seed for life Scholarship at madzanje Secondary School. I'm a male aged 19

I'm studying Eight each subjects, and last past school session i had scored as follows: Biology 62%, English 68%, mathematics 49%, Agriculture 30% Chichewa 79% History 47%, Geography 66% and Social & Life Skills 58%. That is how i had done in this last past school session.

The materials given to me, helps to easy understand the concept when learning and studying. I use books and pens when writing notes and solving when solving mathematics i use Scientific calculator, Hence coming to school while properly dressed nice uniform i have received

There is good relationship with school management and teachers in terms of my studies, because they help me to solve problems which are tough for me. They also help me to practice good behaviour by giving me

guidance and counselling. All of these done because teachers they wishing us bright future, and they want everyone of us to achieve our goals. And again the management does never called me about misconduct, indiscipline and misbehare because i'm not committed any crime at this school.

I thanks Seed For Life ~~the~~ scholarship because is very different with other scholarship. The different is on schooler fees, Seed For Life pays Full School fees while other ~~a~~ Scholarships pay partial School fees they leave some balances which learners are expected to complete it on their own. And again you give us beneficial items to help us in our studies while other Scholarships they only pay for school fees without giving those materials. In addition only different with you and other Scholarships such as twelve nine ministries and Future For All they also pay for Exermination Fee to their members, and i ask you to pay us Examination Fee 'if it is possible.
